- Referral to related technical training programs
- Access to learning resources
- TOEFL preparation

IPG Communication Skills Lab Immigrant Settlement and Integration Services (ISIS)

This program focuses on the culture and communications of pharmacy practice in Canada and is held in a series of evening sessions. It is built around realistic pharmacy cases with role plays and group discussions. Trained simulated patients are hired and Canadian licensed pharmacists lead the discussions, and provide feedback on the role-plays. The program culminates in a mock examination which is very helpful to IPG candidates.
